

VOLUNTARY PARENT DESIGNATED ADULT (PDA) NOTICE OF INTENT

Washington State requires public school districts to address the medical needs of students with diabetes. The school district uses this document to certify that a person intends to serve or continue to serve as a volunteer PDA pursuant to Chapter 350, Laws of 2002, which added sections to RCW 28A.210.

For the purpose of this form, "parent designated adult" means, a volunteer who may be a school district employee, who receives additional training from a health care professional or expert in diabetic care selected by the parents and who provides care, if needed, for the child consistent with the individual health plan. The "additional training" is for care that would otherwise be performed by a health professional licensed under RCW 18.79.

A PDA, acting in good faith and in substantial compliance with the student's individual health plan and the instructions of the student's licensed health care professional, who provides assistance or services, shall not be liable in any criminal action or for civil damages in his/her individual, marital governmental, corporate or other capacities as a result of the services provided to a student with diabetes.
