A note from the principal

Welcome back to school!!!! I have been so excited to see all of the smiling eyes every day here at school. I appreciate all of the support that you are showing to the school with following the mask mandate set forth by Governor Inslee. Hopefully, one day soon we will not have to wear the masks - until then, we are bound to follow the guidelines. On a positive note, we are offering sports for Middle and High School students this year! Be sure to follow the Northport Athletics on Facebook for timely updates. If your child(ren) are interested in participating in our athletic programs - please contact our co-Athletic Directors Shyanne Wilson and Erik Stark for more information. You can reach them through the office! You will also notice, this year we are focusing on being Mustang STRONG. The attributes of a Mustang! **S** - Safe, **T** - Trustworthy, **R** - Respectful, Responsible, Resilient, **O** - one (town/community, school, family), **N** - Nurturing, and **G** - Growing.

We are looking forward to a wonderful year ahead! ~ Dr. Hunt

**ATTENDANCE**

**Facts**

- Good attendance, whether class is held in person or remotely, can help children do well in school, and eventually in the workplace and in college.
- Absences can be a sign that a teen is losing interest, struggling with school work, dealing with a bully or facing some other difficulty.
- By 6th grade, absenteeism is one of three signs that a teen may drop out of high school.
- Attendance is an important life skill that will help your teen keep a job and graduate from college.
Strategies to help your child stay Healthy and Engaged!

- Monitor your child’s attendance and participation; and contact the teacher to address any concerns.
- Make sure your child wears a mask, as needed, gets the flu vaccine and other required shots.
- Find out if your child feels safe from bullies. Make sure that school discipline policies don’t lead to your child becoming disengaged or pushed out of school. If these are problems, work with your school to find a solution.
- If your child seems bored or anxious about school, talk to teachers, school counselors, or other parents for advice on how to make them feel comfortable and excited about learning.
- Ask for help when you need it. School staff, after-school program providers, and other parents or community agencies are available to help families access online learning, obtain food or housing and address other experiences that make it difficult to attend and participate.

Tips for Teaching Mindfulness to Kids and Teenagers

- Make sure they are ready to be mindful, and know what mindfulness is and is not (ex: introspection or chasing thoughts down the “rabbit hole” vs. listening to our bodies)
- Offer to practice mindfulness with them.
- Assure them it's ok to get off track, and how to gently guide themselves back to mindfulness when they realize they lost focus.

Mindfulness games

- Blow bubbles - take deep, slow breath and exhale steadily to fill the bubble.
- Playing with balloons - keep the balloon off the ground! Move slowly and gently - pretend the balloon is very fragile!
- Blindfold taste tests! Experience eating a small food, like raisins or cranberries, as if it was the first time eating it!

Help your student develop a growth mindset!

No matter how many mistakes you make or how slow your progress. You’re still way ahead or everyone who isn’t trying.

If at any time your child is not attending school please contact the school office.

We are not offering remote learning as an alternative to in-person instruction this year.

If your child is exposed to, or tests positive for, COVID-19, please contact us as soon as possible for guidance.
