December 23-January 3—Winter Break

DISTRICT REPORT CARD

“The purpose of the Washington School Report Card is to share information about our K–12 schools. It is important for you—parents, educators, families, community members, and students—to have information to engage with your schools at the local level. You will see how students at your local school or district performed on our state test, the number of students enrolled, the race and ethnicity of the students and educators in the school community, and much more.” - Superintendent Chris Reykdal

If you are interested in more detailed reports please go to the OSPI website https://washingtonstatereportcard.ospi.k12.wa.us/ Type in Northport School District and click go. On the left you will see the districts report card. On the right click Diversity Report and you will be able to peruse a more detailed report.

Overall how is the Northport School District doing?

The 2018-19 state assessments showed an increase of students meeting the grade level standard in Math 40% and in English Language Arts 37%.

The Math, ELA and Science graphs compare the percent of Northport students who met grade level standard to the number of students who met standard in Washington State.
